

Fermi Summer Interns Program in Science

Professors David Miller and David Schmitz, Program Directors

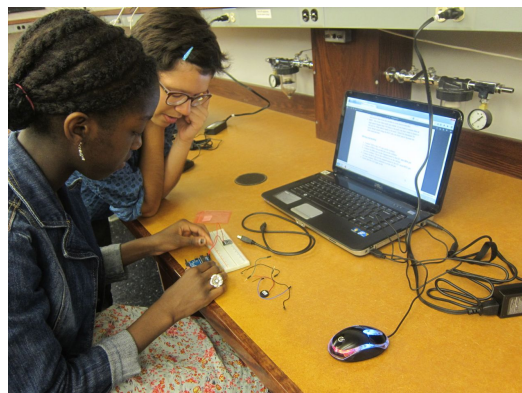

Date: Monday, July 13th to Friday, July 17th, 2014

Time: 9:30 am – 1:00 pm (lunch is provided!)

Location: The University of Chicago
Kersten Physics Teaching Center
5720 S. Ellis Avenue

Cost: *Free!*

Program Description

Each year approximately 20 7th grade students from several schools near Hyde Park are selected by their teachers to participate in the *Enrico Fermi Summer Internship at the University of Chicago*. The internship includes lectures led by university professors, laboratory experiments to apply concepts learned in lectures, and a field trip to The Museum of Science and Industry. Students will learn about science, computers, and electronics in a fun way, and will build electronic games and devise their own experiments to test scientific concepts. Ideal candidates have demonstrated potential and interest in science and show an eagerness to learn outside of their typical class environment. *Interns are expected to arrive promptly to the Kersten Physics Teaching Center before 9:30 am; the daily program ends at 1:00 pm.*

- **Arrive by 9:30am and Pick-up at 1:00pm every day (Monday – Friday)**
- **Thursday, July 16th:** Field Trip to the Museum of Science and Industry
- **Friday, July 17th:** Presentations among students

Parents of selected students must complete an online permission slip and release by **Friday June 19th**, in order for student to participate in program.
