

Fermi Summer Interns Program in Science

Professors David Miller and David Schmitz, Program Directors

Date: Monday, July 9th to Friday, July 13th, 2018

Time: 9:00 am – 1:00 pm (lunch is provided!)

Location: The University of Chicago
Kersten Physics Teaching Center
5720 S. Ellis Avenue

Registration Deadline: Friday June 15th, 2018
(*first come, first served!*)

Cost: Free!

Program Description

Each year approximately 20 incoming 7th grade students from schools near Hyde Park participate in the *Enrico Fermi Summer Internship at the University of Chicago*. The internship includes lectures led by university professors, laboratory experiments to apply concepts learned in lectures, and a field trip to The Museum of Science and Industry. Students will learn about science, computers, and electronics in a fun way, and will build electronic games and devise their own experiments to test scientific concepts. Ideal participants have demonstrated potential and interest in science and show an eagerness to learn outside of their typical class environment. *Interns are expected to arrive promptly to the Kersten Physics Teaching Center by 9:00 am; the daily program ends at 1:00 pm.*

- **Arrive by 9:00am and Pick-up at 1:00pm every day (Monday – Friday)**
- **Thursday, July 12th:** Field Trip to the Museum of Science and Industry
- **Friday, July 13th:** Presentations among students

Parents of students must complete an online permission slip and release by **Friday June 15th**, in order for a student to participate in the program. Registration is first come, first served. A confirmation email will be sent after registration.
